FEATURED PROPERTY ON THE COVER

JAMESBURG EARTH STATION

Extraordinary opportunity to own a piece of history. The Jamesburg Earth Station received the first images from the moon in 1969 and was a fully functional communications station operated by AT&T until 2002. The antenna, the accompanying 20,000 square foot secure structure and heliport are on a 103 acre parcel located in Carmel Valley approximately 25 miles from Carmel by the Sea and the Monterey Peninsula. Adjoining two parcels are available which consist of 46 acres of vacant land and 12 acres with a 3 bed 1 bath home plus a barn may be purchased with the Earth Station site.

Register for Open House
